HIGH COMMISSIONER FOR REFUGEES

Full Name:

UNHCR File Number:

Date:

Your application for refugee status has been carefully considered by our offices against the refugee criteria contained in the 1951 Convention relating to the Status of Refugees and the Statute of the Office of the High Commissioner. You were required to show a well-founded fear of being persecuted based on any one or more of the five grounds contained in the 1951 convention viz., race, religion, nationality, membership of a particular social group or political opinion.

Events described by you do not show that you suffered or should suffer treatment of such a gravity as to amount to persecution under the Convention. You have not been able to substantiate your fears of being persecuted with any credible incidents, or with any documentary or other evidence which would prove that those fears are well-founded.

We regret to inform you that, after carefully examining your application in this second review you have not been found to meet the refugee criteria under international refugee law.

You are therefore not a person of concern to UNHCR. As a result, we have closed your file and we are unable to assist you.

This does not affect your temporary asylum application with the Turkish authorities as that is a separate procedure.

Yours sincerely,

UNHCR BO Ankara
